Licence Number:

Athletics Ireland now offers Online Registration facilities. Please see below if details of you wish to avail of this. There is also information on the Running4All program.

Online Registration:

The Online Registration system used by Athletics Ireland is designed and maintained by Eventmaster.

Event organisers will be given their own log in details, which will enable them to keep abreast of entries. The Eventmaster system also allows event organisers set up discount codes which they may choose to offer out to people, as well as offering a pricing structure like 'Early Bird' The Eventmaster system is also synced with the Athletics Ireland Members database, which gives event organisers the opportunity to offer discounts to Athletic Ireland Members. All events that use the Athletics Ireland Online Registration will be featured at least once in the Athletics Ireland monthly E-zine 'Running News' which is sent to a database of 44,000 individuals. Athletics Ireland are proud to announce that MyRunResults are the preferred recreational running timing partner for the 2019 Road Racing Season. This partnership will allow event organisers have a package tailored to their own individual needs. If clubs avail of this partnership they can make savings of up to €500 depending on their needs.

For more information regarding Online Entry please contact johnholian@athleticsireland.ie

Running4All program

In 2016 European Athletics launched the Running4All program. This program was launched to enable European Athletics set official safety and quality standards for road races across the continent. This is a free service and allows race organisers rate their event using a 1 star, 3 star or 5 star rating. The star rating is determined by meeting certain criteria. In turn race participants are allowed review the event they took part in and provide feedback on their experience that had at the event.

For more information regarding European Athletics Running4all program log onto www.european-running4all.org
