

Ulster Schools Athletics Champions 1949-2026

While inter school athletics was a regular feature of the summer term in schools in the North of Ireland it was not until four years after the Second World War, in 1949, that the Ulster Grammar Schools held the first official Championships. These were, of Course, a male only preserve Covering three age groups and were dominated by a small number of schools Contesting 24 individual events of which Royal Belfast Academical Institution won 8 and Methodist College Belfast 6.

By 1955 twenty four schools had entered the fray and the same year sixteen schools, nine from Belfast, took part in the inaugural Ulster Grammar Schools for Girls at the Queens University Sport Ground at Cherryvale. Co-incidentally it was the same year that the North of Ireland Womens Athletics Association held their first Championships. Competition was limited to 13 individual events, the longest of which was 220 yards. The throws were Confined to the Javelin for Seniors and the Cricket Ball for the two younger age groups. The first Cricket Ball Champion Bridget Robinson would go on to represent Northern Ireland in the Commonwealth Games in the Javelin.

By 1967 the Championships had increased in popularity with 33 Grammar Schools represented in the Boy's Championships. That year there were two Championship meetings held one designated the Ulster Grammar Schools and the other the Ulster SeCOnDary Schools although it has to be said that few athletes from non Grammar schools made much of an impact.

The year 1968 will go down in history as the most significant in the history of school's athletics in Ulster as it saw the Coming together of all of the separate organisations to form the Ulster SeCOnDary Schools Athletics Association catering for all boys and girls in Post Primary Education in Ulster. The Championships were held at Shaw's Bridge, the sportsground of Stranmillis Teacher Training College and the trophies were presented by the Principal of the College Alex Keith. These Championships also saw the introduction of three individual events for first year pupils. Strangely the Minor Girls had an 880 yards while their male equivalent were limited to 100 yards.

Throughout the next five decades the Championships have grown out of all reCognition and now require two days to Complete the programme of 136 Finals. Metrification saw yards, feet and inches replaced by metres and centimetres in 1970 and many of those who were involved in the 1950's would no doubt be shocked at the sight of young women Contesting the 3000 metres or, perhaps worse, the steeplechase. While there have been unimaginable changes over 70 years there has remarkably remained one Constant in the form of Robert 'Stevie' Stevenson. Incredibly every boy or girls who has won an Ulster School's title since 1949 can say that they had their time taken by Stevie. It is doubtful if this is an achievement equalled anywhere in the World in any sport.
